Summary

A motivated full-stack developer skilled in HTML, CSS, JavaScript, MERN stack (MongoDB, Express.js, React.js, Node.js), PHP, and MySQL. Experienced in building dynamic, responsive web applications with CRUD operations, API integration, authentication, and deployment. Quick learner and adaptable, eager to contribute technical skills to real-world projects and collaborative development teams.

Skills

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS, Redux, Context API
- **Mobile Development:** React Native, Expo, Cross-Platform App Development
- **Backend & Databases:** Node.js, Express.js, PHP, MongoDB, MySQL, RESTful APIs
- **Tools & DevOps:** Git, GitHub, GitHub Actions, Postman, Render, Vercel, cPanel, JWT, Advanced Debugging

Achievements & Research

- **1st Place Winner – District Level Avishkar Research Competition:**
Awarded the top prize in the Engineering & Technology category and selected to represent the district at the University Level under Shivaji University, Kolhapur.
- **Rayat Avishkar Research Presenter:**
Competed and presented innovative engineering solutions at the Rayat Avishkar Research Competition.
- **Published Research Author:** Authored and published a research paper titled "Voice Navigation Framework for Cross-Platform Applications" in the proceedings of the 4th National Conference 'ALIVE' (ISBN: 978-93-47216-49-7), organized by KBPIMSR in association with SUMTA, Kolhapur.

Personal information

Name :- Mr. Mangesh Madhuprasad Kuswaha

Date of Birth :- 11th Sep 2003

Gender :- Male

Nationality :- Indian

Current Address :- Sahyadrinagar
Yashwantnagar , Wai, Maharashtra -
412803

Projects

Project 1: Screen Time Plus - Chrome Extension & React Dashboard

Built a productivity tool with a Chrome extension and React dashboard to track social media usage, freeze/unfreeze sites, set time limits, and capture user stress levels. Provides actionable insights for managing digital habits.

Tech: Node.js , Express.js, Python, React, JavaScript, Chrome Extension APIs, Bootstrap

[Github](#) [Demo](#)

Project 2: GST + Profit Calculator

Created a dynamic GST and Profit Calculator that computes GST amounts, selling price excluding GST, gross profit, and net profit. Integrated expense handling for accurate financial analysis, helping users make informed pricing and business decisions.

Tech: React, JavaScript, Bootstrap

[Github](#) [Demo](#)

Project 3: Inventory Management System for Store Owner

Developed a web-based Inventory Management System using PHP, MySQL, HTML, CSS, and JavaScript. Store owners can add, update, and delete products, manage stock quantities, and easily track product availability in real-time. The system streamlines inventory monitoring and improves operational efficiency.

Tech: PHP, MySQL, HTML, CSS, JavaScript

Project 4: Voice-Controlled MERN E-commerce Platform

Developed a full-stack MERN e-commerce site with hands-free voice control powered by a Python model. Features include user authentication, secure payments, and dynamic product management. Enabled real-time voice interaction for navigation and checkout, enhancing accessibility.

Tech: React, Node.js, Express.js, MongoDB, Python (NLP & Voice Automation)
